

“NETconsent is a ‘one stop shop’ for all of your compliance and policy needs. A user-friendly and efficient way to make company policies available to all staff in a couple of clicks!”

Practical Action is an innovative international development organisation putting ingenious ideas to work, so people in poverty can change their world.

A REQUIREMENT TO PROVE COMPLIANCE.

Due to the nature of Practical Action’s charitable work, they have a requirement to comply with the guidelines set by the **UK Government Department for International Development (DFID)**. Such guidelines state that demonstratable compliance of certain company policies and procedures is compulsory.

In an endeavour to adhere to guidelines, Practical Action began their hunt for a suitable **compliance solution**. The right solution would not only **facilitate** their objective to comply – by educating their teams through relevant training and awareness modules, but also give Practical Action the tools to measure and **prove** their compliance.

The team narrowed down their search and compared various compliance solutions like-for-like.

NETconsent, a global software company, was top of their list – steaming ahead with their **technical capability to provide granular reporting** on staff compliance levels.

“The NETconsent Professional Services team is top-notch for teaching and excellent for support.”

Imperatively, NETconsent was able to **‘guarantee 100% user participation’**. This gave Practical Action peace of mind having certainty that their teams were engaging with their **training and awareness modules**. These reasons, alongside NETconsent’s **competitive pricing strategy** are what concluded Practical Actions’ hunt for the right solution.

WITH NETCONSENT, PRACTICAL ACTION HAVE...

- Improved efficiency**, being able to quickly and easily find the policies they need
- Increased compliance** with company policies and procedures
- Proven compliance** to the DFID

HOW DO PRACTICAL ACTION RATE NETCONSENT?
